Department of Utilities

July 29, 2013

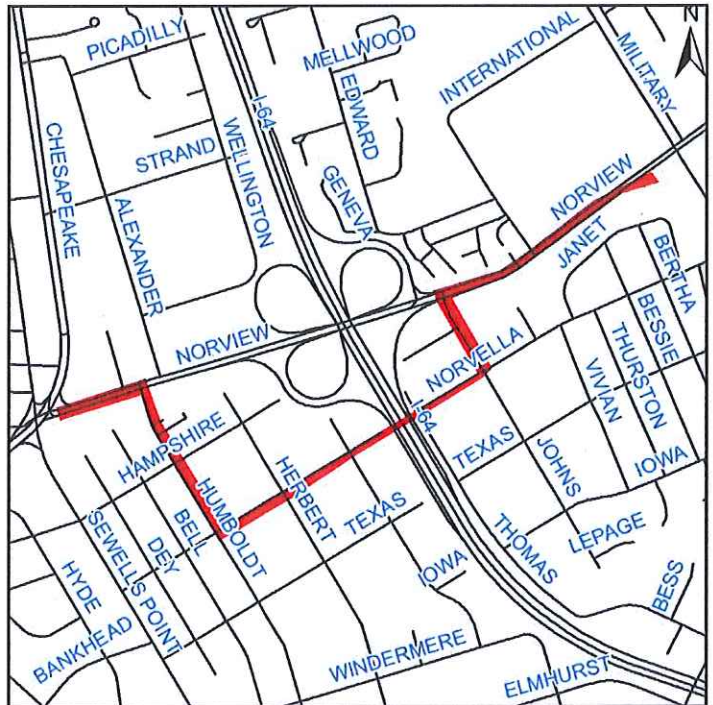

UPDATE

Progress Continues with Norvella Heights and Norview Avenue Sanitary Sewer Infrastructure Improvements

The construction to improve the sanitary sewer infrastructure in the area shown on the map to the right is continuing as planned with anticipated completion by this winter 2013/2014.

The City's contractor, Peters & White Construction, is currently working along Norvella Avenue and Humboldt Street. The planned boring underneath I-64 along Norvella Avenue and the sewer work along Norview Avenue is scheduled to start in late August 2013.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction.

If you have any questions or concerns regarding this project, please do not hesitate to contact the City's on-site construction inspector, Chris Ball. He can be reached by cell phone at 374-0127 to respond quickly. You may also contact the Project Manager, Chad Edralin at 664-6736.

The Department of Utilities appreciates your patience during this project and looks forward to providing you with improved sewer infrastructure.

Sincerely,

Kenneth R. Turner, P.E

Engineering Manager
